# SPIRITS

alcoholic beverages

The repertoire of our spirits is a symphony of color, aroma, flavor, and nobility in all its glory. For centuries, fermented alcohol has accompanied humanity. The finest spirits have been an integral part of religious rituals, offerings, celebrations, military campaigns, and feasts.

Our menu is undoubtedly ruled by local specialties, for which the Slavic lands are justly renowned. From the Polish aperitif of dry cider, to beer with its deep roots in Slavic traditions, vodkas, exquisite liqueurs, and the exceptional native meads, to offerings that have also found a lasting home in our region.
